## Network Specialists

Fibreplus offer a range of universally recognised qualifications, which are City & Guilds Based and industry recognised. Also, bespoke courses pertaining to fibre optics and copper are available on request with accredited certification directly from Fibreplus Ltd Training.

If you cannot find a course below which suits your needs in either time scale or content, please allow us to work together to achieve deliver you needs, as not all set courses address your companies requirements or simply has content not required, which detracts from their main training requirements. Some companies want only practical experience so attendees can return to work to deliver a specific task immediately.

**Price Challenge.** We guarantee that you will not be able to find this course at a lower advertised fee anywhere else in the UK on a like for like basis, or we will provide your course at 10% less.

**Block bookings** of 5 or more persons, on any one week, are eligible for discounts on certain courses with exception to promotions

**Training Centre, contact +44 (0) 2081506342 for further information or email:- [enq@fibreplus.co.uk](mailto:enq@fibreplus.co.uk)**

We provide **Fast-Track** (2 or more courses condensed) courses of the new 3666 City & Guilds Scheme, in particular to 3666 units 2 & 3 where content of both overlap in both theory and practical content, this reduces the time away from the work place and accommodation costs.

**Courses showing \*\*\* are NOT City & Guilds Accredited**, although you will receive Approved Certification for any course attended, which is well recognised within the industry, our training simulator which is one of the largest in Europe allows us to provide **70-80% hands-on practical training** which has proven to benefit greater to attendees than courses delivered by electronic slideshow, slide shows are only an aid/tool to delivering training.
